

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

CALIFORNIA LIABILITY AND COMPENSATION MANUAL.

**This manual shall become operative for
all new business or renewals written to
become effective on or after**

SEPTEMBER 1st, 1911.

SPECIAL NOTICE TO AGENTS.

This Company has expended a great deal of time and thought in the preparation and issuance of this Manual. The infinite variety of the conditions encountered by the Company's representatives in the field cannot be fully or adequately reflected in any practical Manual. In every Manual there must be, of necessity, opportunities for improper classification, and for the evasion of the true spirit of the Manual. The Company must rely upon its representatives to apply the Manual fairly and equitably to the conditions encountered in the solicitation of business. An effort to assign a risk to some Manual classification, which may be misinterpreted to cover it, is improper, and will not be approved by the Company. Representatives are requested to seek a Manual classification which most fairly and adequately represents the hazard involved in the risk. No perversion of the classification or evasion of the requirements in this Manual will be permitted.

GENERAL INSTRUCTIONS.

Representatives of the Company should read very carefully the rules, classifications, and rates contained in this Manual. No deviation or alterations will be permitted, except as they are promulgated officially by the Company. When changes in this Manual are made, agents will be notified as promptly as possible, and they shall thereupon enter such changes herein, and be governed thereby.

Representatives must be especially careful to see that every portion of the application or proposal for insurance is correctly prepared, as this is the basis of the insurance contract, and any inaccuracy or uncertainty as to the nature of the risk may lead to serious misunderstanding and result in dissatisfaction to the assured, to the Company, and to its representative. Classifications shall be stated as in the Manual, and an estimate of payroll, with the proper premium rate, shall appear in all applications or proposals.

LEGAL CONDITIONS.

To the liability for personal injuries imposed by the common or statutory law, the State of California has added new legal provisions, with largely increased obligations, which are set forth in chapter 399 of the laws of 1911.

Chapter 399 consists of 31 sections with subsections. Sections 1 and 2 establish the new law of liability for damages, and, under these sections, an employer who does not elect to pay the compensation provided in the other sections is denied the fellow servant defence, and the assumption of hazard defence. By this means the obligation of the employer to an injured workman is very materially increased. These sections are in the form of a penalty for the employer who does not accept the compensation scheme, but even with the penalty added, the obligations of the employer under the compensation scheme would be very much greater than the obligations of the employer under these sections. These sections are herein referred to as the "Liability Law" and the obligation of the employer thereunder as "Employers' Liability."

Sections 3-31 inclusive provide a plan of compensation not dependent upon negligence of the employer, and to which every injured employee is entitled, unless the accident was

caused by the wilful negligence of the injured, or unless the resulting injury does not disable him for more than one week. These sections are herein referred to as the "Compensation Law." An employer does not become charged with the compensation unless he voluntarily accepts its provisions by filing with the Industrial Accident Board a written statement to that effect. An employer who elects thereby compels his employees to accept the remuneration provided by the compensation plan, except such employees as decline in writing to do so before an accident happens. The requirements and obligations of the "Compensation Law" are very severe, and the premium requirement for their coverage is excessive. The California law goes very much further than any of the laws in Continental Europe or in England, or in any of the States in this country, except one or two recently passed which are somewhat similar. The act provides for surgical or medical treatment with medicines and appliances for a period of 90 days not to exceed \$100.00. The scale of compensation is 65% of the earnings, which compensation cannot be less than \$4.17 a week, nor more than \$20.85 a week, except that if the injured requires the services of a nurse, full wages are to be paid. If the injury disables the workman less than a week, he has no

compensation. If the period of disability lasts more than one week no indemnity is recoverable for the first week of disability. The total limit for death cases, as well as for all injuries of any kind, is equal to three times the total annual wages, the upper wages limit being \$32.05 per week, and the lower wages limit being \$6.41 per week; therefore, in cases of death or permanent injury, the obligation of the employer may be \$5,000, or cannot in any event be less than \$1,000. Subject to these limits, a compensation for permanent injury continues for 15 years. If the accident approximately causes permanent total disability, or permanent partial disability, and death ensues during 15 years after the accident, the unpaid balance of the death benefit is payable. The medical aid undertaking already referred to will be extremely expensive.

The provisions of this act, as a whole, apply to all forms and conditions of employment, and while the "Liability Law" preserves the theory of negligence to a very limited extent, the "Compensation Law" does not recognize negligence at all, and therefore the necessity for insurance against the obligations imposed by either portion of this act is not limited to the employers engaged in manufacturing and construction work only, but extends to all who are engaged in commercial pursuits or in agriculture (or who

employ domestic servants, because every employer is directly and seriously interested.

Representatives of the Company are requested to become thoroughly familiar with these legal conditions by reading the new laws, and addressing inquiries to the Home Office from time to time as questions arise, because a complete and intelligent understanding of the legal situation is fundamentally necessary to a proper conception of this Manual and its requirements.

ESTIMATED WAGES.

Applications or proposals for liability insurance, whether new business or renewals, should state as accurately as possible the estimated expenditure for the contemplated term of the policy; and, where obtainable, the actual expenditure of wages for the preceding policy or calendar year should be stated as an indication of the sufficiency of the estimate. Whenever employees are paid, in whole or in part, on the basis of piecework or any basis other than that of time actually engaged in work, or by board, store certificates, merchandise, credits, or any other substitute for cash, such form of payment shall be considered as wages or part of wages, to be included in the actual disbursements reported at the time of expiration of the policy upon which the adjustment of premium is made.

POLICY FORMS.

The present policy forms, as used by the Company, will be continued, but extensive changes in the wording of many of the forms will be made. Generally speaking, the changed legal condition only affects the Employers' Liability forms. The Public forms and the public obligations are not affected, except very remotely in some instances. It may be necessary to devise other forms to meet special requirements. If so, that work will be undertaken by the Company when the occasion arises. The proposed changes in forms and methods of coverage will be taken up under appropriate titles in this Manual.

COVERAGE.

The Company proposes to offer to employers coverage in three distinct forms. The first form we shall call for convenience "Combination Coverage, including statutory Medical." Under this form of policy, the entire obligations existing under pre-existing laws, as well as those imposed by the new laws, either for employers' liability or compensation, including the obligation for medical aid provided in paragraph 1 of section 8, chapter 399, laws of 1911, are to be covered.

The second form we shall call "Combination Coverage, excluding statutory Medical," which covers everything provided for in the first form, except the obligation for medical aid specifically imposed by above described paragraph 1, this form being offered on the theory that some employers will prefer to make their own personal provisions for the medical aid.

The third form we shall call "Employers Liability." This form provides for the liability imposed by law for damages only but not for compensation nor for medical attention, statutory or otherwise, except for an additional charge as provided under title "Medical Aid," page 12. This distinction must be borne in mind and clearly explained to policyholders. Liability for damages is *imposed* by

law and is covered by this *form* including that imposed by sections 1 and 2 of chapter 399. The rest of chapter 399 provides a compensation plan in lieu of damages which is not *imposed* upon but may be *accepted* by the employer. This feature is not covered by this form.

MANUAL RATES.

All rates in this Manual are for standard limits of \$5,000 for any one person injured and, subject to the same amount for each person, a total limit of \$10,000 for any number of persons injured in one accident. The rates in this Manual in columns headed "Comb." are for "Combination Coverage, including statutory Medical," as above defined. For "Combination Coverage, excluding statutory Medical," a discount may be allowed from these Manual rates for classifications in the Contractors' and Electric Schedules of $12\frac{1}{2}\%$ and in all other schedules of 20% (consult title, "Medical Aid," page 12). The rates in this Manual in columns headed "E.L." are for "Employers' Liability" as defined above under title "Coverage." No medical aid provision will be included in this form except for an additional charge as provided under title "Medical Aid," page 12.

MEDICAL AID.

The "Comb." rates in this Manual provide for the obligation for Medical Aid, as expressed by paragraph 1 of section 8, of chapter 399, but no policy shall be written to cover any voluntary medical or surgical aid beyond that expressed in the statutory obligation. Representatives will please bear in mind that the medical aid obligation exists only where settlement is made on the basis of compensation, and does not exist where the claimant seeks to recover damages.

The "E.L." rates in this Manual do not provide for any medical or surgical expense of any character.

Policies written under the "E.L." rates given in this Manual may be extended to cover immediate surgical relief by adding 5% to these rates in the Contractors' and Electric Schedules, and by adding 10% to these rates in all other schedules.

Policies written under the "E.L." rates given in this Manual may be extended to cover full medical or surgical aid under conditions which seem best fitted to the particular risk to be covered, upon the following basis (percentages apply only to rates for standard limits of \$5,000 and \$10,000) :

- (a) If the contract provides for the services of a physician or surgeon only,
For Contractors' and Electric Schedules,
charge additional 15% .
For all other Schedules, charge additional 20% .
- (b) If ambulance charges are included, in addition to the charge of the physician or surgeon,
For Contractors' and Electric Schedules,
charge additional 20% .
For all other Schedules, charge additional 25% .
- (c) If hospital charges are included, in addition to ambulance charges and physician's or surgeon's charges,
For Contractors' and Electric Schedules,
charge additional 30% .
For all other Schedules, charge additional 35% .

Note. — Funeral expenses are not considered a part of a full medical or surgical aid undertaking, and shall not be covered.

The Minimum Premium for any policy written to include full medical or surgical aid shall be increased in the same proportion as the rate is increased under these rules.

PAYROLL.

The payrolls, to which "Comb." or "E.L." rates are to be applied, shall include the full remuneration of every employee of the insured engaged in the enterprise which is the subject of the insurance, whether engaged in the discharge of his duties upon or wholly or partly away from the premises specifically covered by the insurance. The "Compensation Law" certainly, and the "Liability Law" possibly, impose obligations upon the employer for injuries "growing out of and incidental to his employment;" therefore, the obligation of the employer is not limited to the premises upon which his enterprise is conducted.

A traveling salesman killed or injured in a railroad wreck while on his prescribed route, certainly has a compensation claim against his employer, and under some circumstances might have a liability claim against him. The same thing would be true of a driver or delivery boy injured in transit or at the point of delivery by conditions over which the employer had no control as, for instance, an elevator accident at the place of delivery, a street accident on the way, or any other possible condition involving injury while in the discharge of his duties.

Certain exclusions from the payroll will be permitted at the option of the insured, but all exclusions carry with them an exclusion of all liability to such employee.

EXECUTIVE OFFICERS.

The remuneration of the President, Vice-President, Secretary or Treasurer, of any corporate insured, may be excluded, with the provision, however, that all injuries sustained by any such officer shall also be excluded from the operation of the policy. Executive officers may be covered at the rates provided in this Manual for clerical office force, but such rate shall apply to the entire remuneration of such officers, and not to an agreed part thereof.

CLERICAL OFFICE EMPLOYEES.

The remuneration of the office force engaged in strictly clerical duties may also be excluded from the payroll to which the premium rate is to be applied, with the provision, however, that injuries sustained by any such employee shall be excluded from the coverage provided by such policies. It is permissible to state separately in the schedule the remuneration of office employees engaged in strictly clerical duties, and apply thereto the rates provided in this Manual.

TRAVELING SALESMEN.

The remuneration of traveling salesmen may be excluded from the policy, with the provision, however, that injuries sustained by any such salesmen shall be excluded from the coverage provided by such policies. This privilege shall not extend to city salesmen, collectors, messengers, or others, whose duties are local, and do not customarily take them more than ten miles away from the premises which are the subject matter of the insurance. Traveling salesmen may be included by applying the Manual rate applicable to other portions of the risk, or, if there be more than one Manual rate, then the highest rate, to the entire remuneration of such salesmen. Salesmen, collectors, messengers, and others similarly engaged, must be universally included in the payroll at their full remuneration, and at the Manual rates provided for the classification which is the subject matter of the insurance.

DRIVERS.

Under the "Comb." rates in this Manual the remuneration of drivers may be excluded from the payroll, with the provision, however, that injuries sustained by any such drivers shall also be excluded from the coverage provided by the policy. This rule shall also apply to automobile drivers or chauffeurs, but shall not apply to any helper, messenger, or other employee not actually engaged in driving. The entire remuneration of these last described employees must universally be included in the payroll. Drivers, including chauffeurs, may be covered at the "Comb." rate for the principal classification upon which the policy is written, which rate shall be applied to the full remuneration of such drivers or chauffeurs. Representatives are specially requested to note in this connection the rules herein contained respecting teams and automobiles, which involve material changes in the treatment of these risks where the compensation obligation is undertaken by the Company.

When policies are written under the "E.L." rates in this Manual, the wages of drivers who are enumerated in any concurrent teams' policy carried by this Company may be excluded from the payroll, and such exclusion shall not affect the obligation of the Company on account of

injuries sustained by such drivers. This rule, however, does not apply to helpers, messengers or others similarly employed, whose remuneration must be universally included.

PUBLIC LIABILITY.

The payroll to which the Public Liability rates in this Manual are applicable may exclude the remuneration of executive officers, clerical office force, traveling salesmen and such drivers as are covered under any concurrent Teams Policy carried by the Insured in this Company, all as hereinbefore specifically defined. These exclusions shall not affect the coverage afforded by the Public Liability policy, but there shall be no exclusions other than those enumerated.

ELEVATORS.

Neither the "Comb.," the "E.L." nor the Public Liability (P.L.) rates in this Manual provide for the coverage of injuries sustained by reason of any elevator, its shaft or hoistway, or the machinery or appliances therein contained. It is the purpose of the Company to charge hereafter a specific premium for the "Comb." or "E.L." upon elevators, in addition to the Manual rate for the classification. Please refer to the Elevator Schedule for rules and rates, and become thoroughly familiar with the changed practices in this respect.

TABLE OF LIMITS.

All rates in this Manual are for "standard limits," so-called, being a limit of \$5,000 for any one person injured, and subject to that amount for each person, a total limit of \$10,000 for any number of persons injured in the same accident.

In the following table of limits, the basis rates in this Manual for the standard limits are taken as 100%, and the rates above or below, as expressed, are a percentage of the basis rate. These percentages are expressed in four columns marked, respectively, "A," "B," "C," and "D." To these columns, reference is made at the top of each of the schedules.

For Limits of	"A."	"B."	"C."	"D."
\$1,500/10,000 . .	85%	85%	85%	85%
2,500/10,000 . .	92½%	92½%	92½%	92½%
5,000/10,000 . .	100%	100%	100%	100%

70,000/140,000 . .	250%	235%	215%	210%
75,000/150,000 . .	255%	240%	220%	215%

DEDUCTIBLE AVERAGE.

The term "Deductible Average" is used to designate that form of insurance under which a certain stated amount is deducted from each claim, the Company paying only the balance. The amount so deducted is, of course, paid by the insured. If a claim is settled for an amount not in excess of the deductible average, the insured pays the entire claim.

This Company will write policies covering Compensation or Employers' or Public Liability of any kind permitted by this Manual with a provision for a deductible average in compliance with the following rules and rates, and not otherwise :

No policy providing for a deductible average shall be written for less than the standard limits of \$5,000/\$10,000.

No policy providing for a deductible average shall be written to include medical or surgical aid of any character, and no further discount than that provided by these Deductible Average rules shall be allowed for the elimination of medical or surgical aid.

Policies providing for a deductible average may be written for limits greater than \$5,000/\$10,000, in accordance with the rates given in the Limit Table. The

discount herein provided shall apply only to the Manual rate for standard limits and not to the excess charge.

Because of the additional expense involved in elevator risks by reason of inspection, the rates of discount herein provided for the various deductible average propositions shall be reduced when made applicable to elevators of any character, whether such elevators are written separately, or in policies covering other parts of the risk. This rule applies to all "P. L." rates in the Elevator Schedule.

The "Comb." rates in this Manual include a charge for Statutory Medical Aid, and as Deductible Average eliminates that obligation and a payment on that account is not a part of the claim, special and larger discounts will be permitted on this class of rates only.

Rates for standard limits only may be reduced for deductible average, in accordance with the following schedule of percentage:

	Upon "Comb." Rates Only.	For Elevators.	For All Other Lines.
For \$100 Deductible Average,	25%	0	15%
For \$150 " "	35%	10%	25%
For \$250 " "	40%	20%	35%
For \$500 " "	50%	25%	40%

This rule does not apply to automobile policies, but only to the lines and classifications contained within this Manual.

All policies issued by this Company, providing for a deductible average, shall bear an endorsement reading as follows :

In consideration of the reduced premium rate at which the Policy carrying this endorsement is written it is agreed that any claim covered by the Policy which is not greater than \$..... shall be paid by the Insured and that from the amount of any claim which is in excess thereof, such sum of \$..... shall be deducted by the Company and paid by the Insured. The word "claim" as used herein shall mean the amount actually paid to a claimant, not including the cost of surgical or medical treatment, medicines or appliances.

LONG TERM POLICIES.

All rates in this Manual, unless otherwise expressly stated, are for one year, and no discounts therefrom shall be made for policies written for a longer term than one year, except as specifically provided in the rules governing elevator and general liability insurance.

ADDITIONAL INTERESTS.

No Liability Policy shall be written to cover more than one insurable interest, except under and in accordance with rules contained in this Manual. If the Manual does not otherwise contain a rule respecting any particular risk, the following rule shall apply; but attention is directed to several special rules preceding different schedules, in which specific requirements in this respect are made. Where such special rules exist, this general rule shall not apply.

Liability Policies issued to cover more than one person, firm, corporation or estate shall be considered as written to cover an additional interest, except as follows:

- (a) Policies issued to cover the estate of a deceased person, where an executor or administrator is named, although so expressed as to cover the individual interest of such executor or administrator, create but one insurable interest.
- (b) Co-owners or partners in the subject matter of the insurance may be covered under one policy as one interest, without additional charge, although the policy is so written as to cover the individual interest of each owner or partner.

Under all other conditions, the following per-

centages shall be added to the Manual rate, or any increase of that rate for increased limits :

For one additional interest,	25 %
For two additional interests,	35 %
For three or more additional interests,	45 %

AUTOMOBILE INSURANCE.

The rules and rates of the Company for Automobile Liability Insurance, also Property Damage and Collision in connection therewith, are not included in this Manual. Reference is made to a separate Manual for this line.

Special attention of representatives is drawn to the following rule made necessary by the conditions in California :

Automobile policies as written cover both Employers' and Public Liability for the ownership, maintenance and use of such automobiles, but the policies prohibit the insured from voluntarily assuming any liability, therefore these policies, by their terms, do not cover an obligation for compensation under the California Act, which is voluntarily assumed by the insured, and with which he cannot otherwise be charged. If a policy-holder of this Company accepts the obligation imposed by the Compensation Law, the only protection then remaining to him under his policy is for injuries to the public and, under those circumstances, the published automobile rates are to be considered rates for Public Liability insurance only. The obligation of the employer for compensation may be covered by an additional premium charge of \$20.00 for each chauffeur per annum. Chauffeurs, including others engaged upon or

in connection with automobiles, may be covered as provided for drivers in the Teams Schedule Rules, except that the minimum rate shall be \$2.80, and the minimum annual premium for each chauffeur shall not be less than \$20.00. The compensation obligation of the employer to his chauffeurs is not to be written under any form of policy, unless an Automobile Liability Policy issued by this Company runs concurrent therewith.

OWNERS' AND CONTRACTORS' CONTINGENT OR PROTECTIVE INSURANCE.

PERCENTAGE CONTRACTS. — If an owner employs a contractor on the "percentage basis," so called, and the owner does not employ direct or control any labor or furnish any material, equipment, or tools, except by and through such contractor, both the owner and contractor may be named as insured in policies issued to cover the work to be done, without additional premium charge, but if any of the work is sublet by such contractor, upon a percentage or any other basis, contingent or protective liability insurance must be carried under the conditions and at the rates herein provided for contractors' contingent or protective insurance.

All contingent or protective premium rates herein provided are to be applied to the total cost of all work let or sublet, including all labor, material, and equipment used or delivered for use in the execution of such work, whether furnished by the owner, the contractor, or the sub-contractor, also all allowances, bonuses, or commissions made, paid, or due.

1. Owners' contingent or protective insurance not available to contractors and covering

all work provided for under contract or contracts with the owner, but not on a percentage basis.

- (a) Where the owner furnishes no material, tools, or equipment and employs no superintendent, watchmen, or laborers, rate for each \$100.00 of the total cost of the work let or sublet, 15 cents.
- (b) If the owner furnishes any portion of the material or equipment, but employs no superintendent, watchmen, or laborers, for each \$100.00 of the total cost of the work let or sublet, 40 cents.
- (c) If the owner employs any superintendent, watchmen, or laborers on the premises, these employees must be covered under "E.L." or Combination Coverage and Public Liability policies under the rules and at the rates provided in the Contractors' Schedule, and the minimum premium for such a policy shall not be less than \$10.00 per annum.
- (d) If the owner of land makes a long term lease to another, the lessee to erect a building upon the land, the owner of the land having no relation to or connection with the work of construction, a contingent or protective policy to cover such lessor during the construction of the building may be written at a rate of 5 cents for each \$100.00 of the total cost of the building as hereinbefore provided. The policy, however, shall be endorsed to express these existing conditions.

2. Contractors' contingent or protective insurance covering work to be performed under sub-contract or sub-contracts upon the percentage or any other basis.

- (a) If the contractor does not furnish any material, tools, or equipment for the use of any sub-contractor, charge for each \$100.00 of the total cost of the work sublet 20 cents.
- (b) Where the contractor furnishes any portion of the material, tools, or equipment for use of any sub-contractor, charge for each \$100.00 of the total cost of work sublet 60 cents.
- (c) If the contractor employs any superintendent, watchmen, or laborers upon the premises or undertakes the actual performance of any portion of the work, such employees and such work must be covered by means of "E.L." or Combination Coverage and Public Liability policies on the payroll basis under the rules and upon the rates provided in the Contractors' Schedule, and such policies must be concurrent with and carried by this Company in connection with its contingent or protective policies, on the portion of the work sublet.

DISCOUNTS.—No discounts for any cause will be permitted on any Contingent or Protective rate which is made applicable to the cost of the work.

MINIMUM PREMIUM. — For all Contingent Liability lines, \$25.00.

LIMIT TABLE. — For all classifications, Rate "C."

Note. — Contingent or Protective insurance shall not be written for limits of less than \$5,000.00 and \$10,000.00.

ALTERATION PERMIT.

A permit for alterations, additions, or repairs may be endorsed upon any General Liability Policy or Employers' or Combination Coverage or Public Liability Policies at the rates named in this Manual for "E.L." or "Comb." and "P.L." or at the rates and under the provisions in this Manual respecting contingent or protective insurance, subject to the following minimum premiums, which shall be charged in addition to the minimum premium stated in the policies, to which permit is attached.

"E.L." or "Comb.," with or without

Public Liability,	\$10.00
General Liability,	10.00
Contingent or Protective Liability,	10.00

BAKERS, CONFECTIONERS, ETC., SCHEDULE — RULES.

MINIMUM PREMIUM. — For E.L. or Comb. only,
or with P.L., or with P.L. and Teams,
\$25.00.

LIMIT TABLE. — All classifications, Rate “D.”

Classification.	Comb.	E.L.	P.L.
Coal Mines — with shafts, tunnels, or galleries :			
Anthracite	8.40	2.50	(a) .
Bituminous	8.40	2.50	(a)
Coal Mines — with drifts or slopes, tunnels or galleries (no shafts):			
Anthracite	8.40	2.50	(a)
Bituminous	8.40	2.50	(a)

CONTRACTORS' SCHEDULE — RULES.

MINIMUM PREMIUM. — For E.L. or Comb. only, or with P.L., or with P.L. and Teams, \$50.00.

LIMIT TABLE. — For all classifications marked with a single dagger (†), Rate "B." For all classifications marked with a double dagger (‡), Rate "C." For all other classifications, Rate "D."

BLASTING. — Policies written upon classifications in this schedule marked with an asterisk (*) and expressed to exclude blasting, may be written to cover blasting by the use of the manual classification, rules, and rates therefor. The insured must be instructed in all cases where the separate blasting rate applies, that the amount of blasting payroll expended, as defined under this classification, must be separately kept and reported. If a premium is charged for blasting, and no blasting is done, the minimum premium shall be retained.

RAILROADS. — The rates in this schedule include the construction, maintenance, and operation by contractors of temporary work roads in connection with the work insured, provided such road is constructed, maintained, and operated exclusively for the prosecution of the work covered by the insurance; that such construction, maintenance, and operation is wholly by means of employees of the

CONTRACTORS' SCHEDULE — RULES. — Continued.

insured carried on his payroll; and that such railroad has no connection with or entry upon the tracks of any other railroad. If conditions are not as above stated, then all payroll engaged in the operation of the road, but not in its construction or maintenance, must be separately kept, stated under the classification, and at the rates provided for railroads in the Miscellaneous Schedule.

This entire rule applies only to the Contractors' Schedule, and not otherwise.

Read General Rules.

CONTRACTORS' SCHEDULE — RATES.

Classification.	Comb.	E.L.	P.L.
‡ Additions to, alteration and repair of insured's existing buildings or plants (not maintenance of equipment covered as manufacturing operation), excluding the erection or demolition of structural steel or the construction of sewers, tunnels, shafts, or subways (only to be written in connection with Employers' Liability Policies covering manufacturing plants or General Liability Policies).	6.30	3.30	.50

CONTRACTORS' SCHEDULE — RATES. — Continued.

Classification.	Comb.	E.L.	P.L.
‡Advertising Sign Mfrs. — erection and repairing only — (to cover only during actual performance of the work)	5.25	2.75	1.00
‡Architects, supervising — (outside payroll only)	5.25	2.75	.75
‡Arms — (heavy ordnance) erecting	6.86	3.57	.50
‡*Artesian Well Drillers (no blasting)	3.15	1.65	.50
Asphalt Layers — street or sidewalk (including yards and shops)	2.80	1.10	1.50
‡Autogenous Welding (oxy-acetylene)	10.50	5.50	2.00
‡Automatic Sprinkler Mfrs. — (away from shop)	3.15	1.65	.50
‡*Barge Canal Contracts — all operations in connection therewith, except railroad operations, blasting, bridge building, caisson work, and wrecking, for which see specific rates.

ELEVATOR SCHEDULE — RULES.

An "Elevator" in the sense of this Manual is any platform hoist, operated by muscular or mechanical power, and intended or used for the conveyance of persons or goods, or both. This definition is not intended to include dumb-waiters.

The following definitions of terms used in the classifications are intended for the instruction and guidance of the Company's representatives in the application of the schedule, and must be strictly observed.

A "Sidewalk Elevator" is an elevator maintained and operated outside the walls of the building, and the platform of which does not rise above the ground or sidewalk level.

A "One-story Elevator" is an elevator maintained and operated within the walls of the building, having a total rise of not more than twenty feet, and having not more than two landings above the bottom of the shaft.

A "Private House Elevator" is an elevator maintained and used in a building occupied by one family only and exclusively as a dwelling.

A "Factory Elevator" is an elevator maintained and used in and for the purpose of manufacturing plants exclusively.

A "Hand Hoist" is a lifting appliance operated through hatch-ways and without a platform, operation being by means of hand power, with

rope or chain. Hand hoists opening upon the sidewalk shall take the elevator rate.

A "Storage Warehouse Elevator" is an elevator maintained and used in buildings where merchandise is stored, excepting, however, elevators in furniture storage warehouses or any buildings occupied wholly or in part for wholesale or retail sales purposes.

The requirement in this schedule for an additional charge for landings in excess of ten must be strictly observed, and the following rule will apply: In computing the number of landings, each floor from and including that at which the elevator starts, and to the top of the shaft shall be counted as a landing, whether served as a landing or not. An express elevator which passes a number of floors without stop shall be charged the same premium as it would be if it stopped at all landings. An elevator of any character passing floors in its trips, where no landings are provided, shall pay the same rate as the same elevator would pay if there were landings at each floor.

COVERAGE. — The coverage for elevators varies according to the classification of the elevator. For details and instructions, see rate schedule following. Subject to these rules and rates elevators may be covered under General Liability Policies or under separate Elevator Policies, also by attachment of an endorse-

ELEVATOR SCHEDULE — RULES. — Continued.

ment to "Comb.," "E.L." and Public Liability Policies, but no elevators shall be covered for any lower rates than those provided by the schedule, except under the rule for long term policies. Certain elevators (for which see Schedule) may be written to cover "Comb." or "E.L." only, or Public Liability only, or "Comb." or "E.L." and Public combined, the rate for the joint coverage being proportionately reduced to encourage that form, but certain kinds of elevators shown in the schedule will not be written for Public Liability only. No policy of any character hereafter written shall include any elevator or hoisting device enumerated, described or rated in the following Elevator Schedule, except for the specific premium therein provided for such elevator.

LONG TERM POLICIES. — Policies written to cover elevators either under the General Liability form or the Elevator form, covering in a building which would be properly rated under the General Liability Schedule, but not otherwise, may be written for a term of three years, with a discount of 10% upon the rates given in the schedule, provided that the entire three-year premium is paid in advance, or that 50% of such entire three-year premium shall be paid in advance, 30%

ELEVATOR SCHEDULE—RULES.—Continued.

thereof at the end of the first year and 20% thereof at the end of the second year.

ADDITIONAL INTERESTS.—Elevators insured under any form of policy must not be written to cover more than one interest, except with an additional premium charge of 50% of the premium stated in the schedule for one additional interest, 65% for two additional interests and 75% for three or more additional interests. Such interests may be those of an individual, estate, firm, or corporation, but co-owners may be covered under one policy without additional charge. Policies issued to cover the estate of a deceased person, where an executor or administrator is named, although so expressed as to cover the individual interest of such executor or administrator, create but one insurable interest. Where an elevator is insured at the full rate given in the schedule, other policies on the same elevator and for the same limits, but not otherwise, may be issued to other persons in interest for a premium of 50% of the rates given in the schedule, always provided that this Company has previously or concurrently issued a policy upon the same elevator at the full Manual rate. Any such additional policy written under this rule must be made to expire at the same

ELEVATOR SCHEDULE—RULES.—Continued.

time with the principal policy, the premium being adjusted pro rata for short terms. If the principal policy provides for greater than standard limits, the second policy may, nevertheless, be written for standard limits, or may be written for the same increased limits as the principal policy, upon the same additional pro rata premium charge, but the second policy cannot be written for limits greater than the principal policy. A tenant of a part of a building who has no control of the elevator whatever, and who does not operate such elevator, may be covered for 50% of the rate named in the schedule which is applicable to such elevator.

LIMIT TABLE.—For all classifications, Rate “A.”

Note.—Elevators shall not be written for limits of less than \$5,000 and \$10,000.

MINIMUM PREMIUM.—No rule in this Manual respecting Minimum Premium shall include the elevator premium, which premium must always be in addition thereto. The minimum premium for elevators shall be the annual premium for the limits.

LANDLORDS’ CONTINGENT OR PROTECTIVE LIABILITY.—If the owner or lessee of a building or buildings containing one or more eleva-

ELEVATOR SCHEDULE — RULES. — Continued.

tors, has leased the same entire to another, and the tenant controls the elevators, and operates them exclusively, and furnishes power, and has entire charge and control of the elevators, Elevator Policy may be written to cover the owner or lessee not in possession at 50% of the "P.L." elevator rate applicable thereto, as provided in this Manual, but an endorsement shall be attached to such policy stating the existence of this condition, and that it shall continue during the term of the policy.

GENERAL. — The factory or storage warehouse combined elevator rates, also those for hand hoists, power hoists and freight escalators and conveyors are available only for writing business when "E.L." or "Comb." and Public Liability Policies are written concurrently. No elevator shall be written for "E.L." or "Comb." only, except concurrently with or endorsed upon an "E.L." or "Comb." policy covering the risk with which the elevator is connected. If any portion of the building within which such factory or warehouse elevator, hand hoist, power hoist, or freight escalator or conveyor is contained, is occupied by any one other than the insured, whether using the elevator or not, the "E.L." or "Comb." and "P.L." joint rates are not available, but the rate for "E.L."

ELEVATOR SCHEDULE—RULES.—Continued.

or “Comb.” only upon any such elevator is available, nevertheless. Insurance against property damage caused by elevators will not be undertaken.

ELEVATOR SCHEDULE — RATES.

Classification.	E.L.	Comb.	Pub.	E.L. & Pub.	Comb. & Pub.
Passenger, Freight, or Combination:					
Department Stores	\$15.00	\$22.50	\$60.00	\$67.50	\$75.00
Hotels, including apartment hotels and hotel apartments, where elevator has not more than ten landings	15.00	22.50	40.00	47.50	55.00
For each additional landing over ten, charge			1.50	1.50	1.50
Passenger, Freight, or Combination Eleva- tors not otherwise classified — where elevator has not more than ten landings, For each additional landing over ten, charge	12.50	18.75	35.00	41.25	47.50

Exceeding One Story	15.00	22.50	(x)	25.00	32.50

Note. — (x) Not insurable for Public Liability only.

GENERAL LIABILITY SCHEDULE — RULES.

General Liability forms and rates may be used to write risks enumerated in this schedule, but not otherwise.

For payroll rates, see Warehouse and Store Schedule.

For elevator rates, see Elevator Schedule.

The rates in the General Liability Schedule, except as otherwise definitely expressed, are based upon each lineal foot of frontage and each 100 square feet of area, and these rates are in lieu of any other charge for the public liability hazard involved, except as respects elevators.

Representatives are not permitted to write risks upon General Liability forms except at premium rates given in this Manual for payroll, frontage, and area, unless the General Liability Schedule or these rules provide other means.

Elevators must be covered at Manual rates, or specifically excluded from the policy.

PAYROLL. — General Liability policies may be written to cover clerical office employees as a separate classification, it being understood that such classification shall include only those whose duties are confined to keeping the books of the insured, conducting correspondence, or engaged wholly in the office where such books are kept or correspondence conducted, and who have no duties of

any other nature in or about the insured premises. The "E.L." rate on the entire payroll for such classification shall be 6 cents for each \$100.00, and the "Comb." rate upon the same payroll shall be 50 cents for each \$100.00. In schools and colleges the payroll of professors and teachers may be similarly written as a separate classification at the rates given above for clerical office force, except in veterinary colleges, where the rate shall be "E.L.," 30 cents, "Comb.," \$1.00. To secure complete coverage, the payroll of every employee of any character engaged upon or in connection with the premises insured must be included. The policy, whether written at "E.L." or "Comb." rates, will cover no liability to any employee whose payroll or remuneration is excluded, except as herein elsewhere specifically provided by these rules.

FRONTAGE. — Rear buildings having frontage only on alley or court must be written for same frontage rate as if upon street. When an insured not otherwise paying frontage charge on same building occupies a basement, store, or shop, charge for frontage only on the portion of the entire frontage of the building which he occupies. The frontage charge shall apply to all street frontages, excluding the rear or sides of

GENERAL LIABILITY SCHEDULE—RULES.—Continued.

any building or portion thereof which abuts upon an alley not more than 15 feet wide, from building line to building line. When the insured, not the owner or general lessee, occupies premises above the first floor, no charge shall be made for frontage. When writing sanitoriums, hospitals, schools, colleges, public libraries, public museums or public picture galleries, if the buildings abut upon the street, the charge shall be made upon the entire frontage of the premises, but if they stand back from the street line, the frontage charge shall be made upon the number of lineal feet in the front of each building in which there is an entrance from the street, except cottages.

AREA.—The area upon which a charge per 100 square feet is made shall be the outside measurement of the building, multiplied by the number of stories. No deduction shall be made for light, air, or elevator shafts, nor for courts, if entirely enclosed within the walls of the building. Any basement to which the public is admitted for general trade or business purposes shall be counted as a story. Cottages on the same grounds as hospitals, sanitoriums, asylums, schools, and colleges shall be rated as private dwell-

GENERAL LIABILITY SCHEDULE — RULES. — Continued.

ings in lieu of area, frontage, and payroll charges.

MINIMUM PREMIUM. — For private dwellings and all risks classified as such see new Residence and Farm Schedule. For all other general liability risks, \$10.00 per annum for each policy. This rule, however, is subject to the exceptions specifically noted in this schedule. If the basis premium is increased for additional limits the minimum premium shall be increased in the same proportion. For long term business the minimum may be decreased in the same proportion as the rate is decreased under these rules.

LONG TERM POLICIES. — Policies may be written upon risks in this schedule for a term of three years, with a discount of 10% upon the payroll, frontage, area, and elevator rates, provided that the entire three-year premium is paid in advance, or that 50% of such entire three-year premium shall be paid in advance, 30% thereof at the end of the first year and 20% thereof at the end of the second year. Policies upon private residences are not subject to this rule.

ADDITIONAL INTERESTS. — A General Liability Policy must not be written to cover more than one interest, except with an additional

GENERAL LIABILITY SCHEDULE — RULES. — Continued.

premium charge of 50% on all elements of the risk for one additional interest, 65% for two additional interests and 75% for three or more additional interests. Such interests may be those of an individual, estate, firm, or corporation, but co-owners may be covered under one policy without additional charge. Policies issued to cover the estate of a deceased person, where an executor or administrator is named, although so expressed as to cover the individual interest of such executor or administrator, create but one insurable interest.

DIFFERENTIALS. — The rates in the General Liability Schedule apply to risks located in San Francisco and Los Angeles only. For risks located elsewhere in the State of California, a differential discount of $33\frac{1}{3}\%$ upon the rates in this schedule only will be allowed. It must be understood that this discount does not apply to any rate applicable to payroll or to elevators, but only to area and frontage rates or other rates used as substitutes therefor in this schedule. This differential discount does not apply to the following classifications: Baseball Parks, Country Clubs, Exhibitions (Agricultural, Horticultural or Industrial), Moving Picture Shows and Yacht Clubs.

LIMIT TABLE. — For Amusement Parks, Billiard and Bowling Halls, Halls for Lodge Meetings, Banquets and Balls, Theatres, Horse Shows, Ball Parks, Exposition or Exhibition, indoors and outdoors, Moving Pictures, etc., Rate “A.”

Advertising Signs, all classes, Apartment Hotels and Hotel Apartments, Asylums, Baths, Hospitals, Hotels, Restaurants, Riding Academies, Turkish Baths, Wine and Spirit Merchants — Retail Dry Goods Stores — Retail Department Stores, Rate “B.”

All other Wholesale and Retail Store Risks, Rate “C.”

All other classifications, Rate “D.”

Note. — General Liability insurance shall not be written for limits of less than \$5,000 and \$10,000.

LANDLORD’S CONTINGENT OR PROTECTIVE LIABILITY. — If the owner or lessee of a building or buildings has leased the same entire to another, and the tenant controls the elevators and operates the same exclusively, and furnishes power, and has the entire charge and control of the premises, a General Liability Policy may be written to cover the owner or lessee not in possession at 50% of

the several rates chargeable for the elements of hazard in such risk, as provided in this Manual with a Minimum Annual Premium of \$5.00, but an endorsement shall be attached to such a policy stating the existence of this condition, and that it shall continue during the term of the policy; also that the insured has no employees on or about the premises, except those who may from time to time be engaged in making incidental repairs, not involving structural changes of any character. Agents of owners having care, custody, control, and operation of buildings must be insured under General Liability Schedule at the same rate as owners or tenants in occupation. If the policy is written to cover both the owner and the agent, the rates shall be 150% of the rates given in this Manual, and the combined payroll of both insured shall be subject to the premium charge.

GENERAL.—Where buildings are occupied in part as stores, with dwellings above, if the insured occupies the stores or any of them, the rate for stores must apply to the store portion, and the rate for apartments or tenements, to the balance. If a policy is written to cover a building, in which a theatre, concert hall, or other place of pub-

lic amusement is contained, but there are in the building such occupancies as hotels, stores, offices, or apartments, the theatre, concert hall or place of amusement must be written in accordance with the theatre rule and the balance of the risk, at the proper rates as given in this Manual.

THEATRE INSURANCE.

COMBINATION COVERAGE. — The “Comb.” rate to be applied to the full remuneration of all Theatre employees including Executives or Managers and Box Office, Auditorium or Stage employees shall be \$2.10 per \$100.00 of such remuneration. This rule shall apply to all actors, entertainers or performers employed by the management individually, in combinations or in troupes for a money consideration but shall not apply to troupes or organizations giving entertainments under an arrangement for a share of the Box Office receipts only.

“E.L.” COVERAGE. — For “E.L.” only use “E.L.” rates in Warehouse and Store Schedule. For “E.L.” with “P.L.” use “P.L.” rates given below without additional charge for “E.L.”

PUBLIC LIABILITY. — A first-class theatre or hall is one in which the following conditions exist:

GENERAL LIABILITY SCHEDULE — RULES. — Continued.

- (a) All external walls must be of masonry, with or without a steel or iron frame.
- (b) All interior walls and partitions must be of masonry.
- (c) The main floor must not be more than six feet above the street level.
- (d) There must be exits from all floors or galleries passing from such floors directly through the external walls or wing walls of masonry to independent staircases.
- (e) There must be an asbestos or fireproof curtain in front of the stage.
- (f) There must be an automatic sprinkler system installed over the stage.
- (g) The performances given must be those usual in theatres proper and roof gardens, including dramatic entertainments, operas, concerts, and lectures given for two or three hours during evenings or afternoons.
- (h) Such exhibitions must be confined to the premises mentioned and not include any open-air place, roof gardens excepted, or other place than the permanent construction described hereinbefore.

The Public Liability rate for a theatre, opera house, or music hall in which all these requirements are satisfied shall be 10 cents per annum for each seat on the main floor and in each gallery, irrespective of the number of entertainments given.

If the construction is not such as to comply with requirement (a), $2\frac{1}{2}$ cents must be added to the rate.

If the construction does not comply with (b), (c), (d), (e) or (f), one cent must be added to the rate in each instance.

If the performances are "continuous," 2½ cents extra must be added.

In towns of less than 40,000 population, the minimum premium is \$75.00; otherwise, \$125.00.

REMOVAL PERMITS.

Permits for the removal of mercantile establishments to new locations may be attached to General Liability Policies under the following conditions :

- 1st. The policy or policies shall cover old and new locations during the period of removal.
- 2d. There shall be a flat premium charge for the hazards of removal not herein excluded, of \$5.00 per day for the term during which the removal is in progress, the minimum term to be 3 days, and the minimum premium in any event, \$15.00. An additional premium of \$3.00 per day shall be charged for every day or portion of day in excess of 3.

This permit shall exclude the hazard of transportation between the old and the new location, which shall be covered by a Teams' policy at the proper rate only.

GENERAL LIABILITY SCHEDULE — RATES.

(See Differential Rules, page 91.)

(*All rates in this Schedule are for Public Liability only.*)

Silica Mines	8.40	3.75	(a)
Silver Mines	8.40	3.75	(a)
Sulphur Pyrites Mines	8.40	3.75	(a)
Talc Mines	8.40	3.75	(a)

MISCELLANEOUS SCHEDULE — RULES.

MINIMUM PREMIUM. — For E.L. or Comb. only, or with P.L., or with P.L. and Teams, \$25.00.

PUBLIC LIABILITY. — Apply to Home Office for P.L. rate on any classification in this schedule marked (a).

LIMIT TABLE. — All classifications marked with a single dagger (†), Rate “A.”

All classifications marked with a double dagger (‡), Rate “B.”

All classifications marked with a circle (°), Rate “C.”

All other classifications, Rate “D.”

STAMPING. — All rates in this schedule include stamping hazard, if any.

BLASTING. — Policies written upon classifications in this schedule marked with an asterisk (*) and expressed to exclude blasting, may be written to cover blasting by the use of the manual classification rules and rates therefor. The insured must be instructed in all cases where the separate blasting rate applies, that the amount of blasting payroll expended, as defined under this classification, must be separately kept and reported. If a premium is charged for blasting, and no blasting is done, the minimum premium shall be retained.

MISCELLANEOUS SCHEDULE — RULES. — Continued.

RAILROAD HAZARD. — For railroads in connection with manufacturing plants, if insured plant does not supply motor power, no separate charge for railroad hazard. If insured plant supplies motor power, and railroad is entirely upon the premises covered by the policy, no separate charge for railroad hazard. If cars are moved by steam capstan or drum, not itself movable, no separate charge for railroad hazard.

Logging Railroads shall not be considered as entirely upon the premises of the insured.

Subject to the foregoing, upon all risks in connection with which a railroad is operated, a separate payroll of all employees engaged in the operation, maintenance, and repair of such railroad shall be rendered and subjected to the premium rate required in this manual.

Read General Rules.

RESIDENCE AND FARM SCHEDULE — RULES.

DISCUSSION. — The new Liability Law in California very seriously increases the obligation of every resident who employs one or more domestic servants, and also that of owners and operators of farms as to all employees, whether the farms are operated for pleasure or practical purposes.

Residence property has heretofore been insured generally at a flat charge of \$4.00 per year without charge for employees, and this has been extended to Farm property having a considerable acreage, by making an arbitrary additional acreage charge.

Now that the Assumption of Risk and the Fellow Servant rules are abrogated and Contributory Negligence is not a defence where the employee's negligence is slight and that of the employer gross, it is evident that an increase in the premium charge is necessary to carry these risks.

RESIDENCE PROPERTY. — To meet the requirements of the situation in relation to Residence Property it would not seem practicable to compute the premium for the Employers' Liability or Compensation hazard existing, by the application of a rate to the payroll of house servants or others connected with Residence property. Therefore this

class of risk will be rated upon the flat rate basis for the coverage of the Public exposure and a per capita charge for each servant.

FARMS. — Farm property, especially that operated as such, has not heretofore ordinarily been insured. The necessity for providing suitable coverage now arises and it is assumed that Farming operations in California are conducted so extensively as to permit of the rating of this class of risk upon the payroll basis.

It is recognized the farmer has always in his employ a certain amount of permanent labor, and also it frequently occurs during harvest seasons or other periods during the year that miscellaneous labor is hired for periods of one day to a month or more, and further that this miscellaneous labor is paid for as convenient at the end of the day, week, or month.

It is believed, however, that no difficulty will be experienced with those farmers who insure, in impressing upon them the necessity of keeping a strict record of all wages which they may pay to all their employees, — permanent or temporary.

It is further believed a reasonably accurate check of this record can be made if the

following information be secured in connection with each such risk in addition to the usual warranties or questions asked in proposals for insurance :

Location of Farm.

Area of Farm.

Nature of Crops raised.

Nature of largest crop and proportion of same to entire crop.

Estimated number of permanent employees, including House Servants.

Estimated number of temporary employees, including House Servants.

Season of the year and purposes calling for employment of temporary labor.

State approximate length of period temporary employees are engaged.

Total estimated payroll of permanent employees, exclusive of board and lodging.

Total estimated payroll of temporary employees, exclusive of board and lodging.

It is of course recognized that laborers upon farms are undoubtedly in the majority of instances compensated in part by board and lodging. With general knowledge of the amount of cash the average farm employee receives, it is believed in adopting the payroll basis of computing premiums

for this class of risk, it would be best to ignore entirely the board and lodging question and promulgate a rate sufficiently high when applied to the actual cash received by the laborer to result in the same premium as would be derived by the application of a lower rate to the compensation of the laborer including board and lodging. Therefore the rates as contained in this schedule for Farm laborers are to apply to the actual cash received exclusive of any allowance for board and lodging.

The above tabulated form for securing information, the location and area, the nature of crops raised, etc., should give the underwriter of the company sufficient data to determine whether or not the subsequent information as to permanent and temporary employees is correct.

In securing the proper estimates upon which to base the premium it is presumed that each farmer has one or more permanent employees the year round. The nature of the farm as submitted to the underwriter should enable him to determine whether the assured is giving correct information in this respect.

In addition, the farmer knows, and the underwriter should be able to determine from the nature of the farm and the information

disclosed by the above questions, that a certain amount of additional help will be required during the year, and the farmer can usually tell within a very few days as to the length of time he will require this additional labor.

In adjusting the premiums at the expiration of the policy, a signed statement from the farmer on a form furnished by the Company should show the amount expended as wages of permanent and temporary employees.

From these statements the payroll adjusting department of the company should easily determine whether or not a farmer was properly reporting his payrolls, guided by the information secured at the time of insuring the risk, giving consideration to the size of the farm, its location, nature of crops, etc., and payroll audits can be obtained when considered necessary.

DESCRIPTIVE. — A building designed and occupied as a private residence by no more than two families, together with a tract of land not exceeding ten acres, and including barns, stables, garages, and customary out-buildings, shall be considered a residence for the purpose of these rules.

A building designed and used as a resi-

dence, and occupied by not more than two families, in connection with which there is a tract of land of more than ten acres, shall be considered as a farm, for the purpose of these rules; and this definition shall remain in force even if the tract of land is included within the boundaries of a city.

CLASSIFICATIONS DEFINED. — The classifications used in writing this business are defined as follows, and so far as necessary shall be made a portion of the policy contracts to be issued:

“Chauffeur” shall mean — any employee who at any time during his employment shall drive, operate, care for, maintain, or repair any automobile.

“Coachman” shall mean — any employee who at any time during his employment shall drive, ride, or care for a horse, or other draft animal, and this term shall include stablemen, and all others so employed.

“Gardener,” “Choreman,” or “General Laborer” shall mean — any employee who at any time during his employment shall be engaged in the occupations ordinarily known as gardening, or in the care of furnace, residence, premises, estates, or lands.

“House Servants” shall mean — all other

employees in domestic service, not expressly enumerated above. This term shall include cooks, laundresses, maids, butlers, footmen, housemen, seamstresses, companions, governesses, and all other employees performing duties of a domestic character.

All the foregoing classifications shall apply only to residences as herein defined, and a per capita charge for each servant in any of the aforesaid classifications shall be made in amounts stated in the following schedule. Persons employed for less than a year may be added to the policy at any time upon a pro rata basis, but no short period charge shall be less than the pro rata premium for three months, upon that classification.

If policies covering either residences or farms are intended to include construction work, or extraordinary repair or alteration work, either above or below ground, such work must be covered under its proper classification, and rated as provided elsewhere in this Manual, or else wholly excluded from the policy. The policies will permit ordinary repairs for the maintenance of the property only, without additional premium.

RESIDENCE AND FARM SCHEDULE — RATES.

Residence Property.

Classification.

(For Employers' Liability and Public Liability Coverage.)

For each residence as above defined including not more than ten acres of land, for all Public Liability, per annum . . . \$4.00

For Employers' Liability, the charge per capita under the classifications above defined shall be as follows:

For each "Gardener," "Choreman," and "General Laborer" employed, per annum . . . 3.00

For each "House Servant" employed, per annum . . . 2.00

Note. — Under this form of policy "Chauffeurs" and "Coachmen" are not to be covered and can be insured only by the issuance of the usual Automobile or Teams policy.

For any Elevator, charge Manual rate as per Elevator Schedule.

(For Combination Coverage (i.e., Employers' Liability and Compensation combined) and Public Liability Coverage.)

For each residence as above de-

RESIDENCE AND FARM SCHEDULE — RATES. — Continued.

financed including not more than ten acres of land, for all Public Liability, per annum	\$4.00
For Combination coverage, the charge per capita under the classifications above defined, shall be as follows :	
For each "Chauffeur," per an- num	20.00
For each "Coachman," per an- num	14.00
<i>Note.</i> — Combination coverage is not to be written on "Coachmen" or "Chauffeurs" except under the Automobile or Teams form of policy and when concurrent Pub- lic Liability insurance upon the teams or automobiles is also carried by this Company.	
For each "Gardener" "Chore- man," or "General Laborer," per annum	9.00
For each "House Servant," per annum	7.00
For any Elevator, charge Manual rates as per Elevator Schedule.	

Policies covering Residence Property shall, except as follows, exclude accidents to members of the insured's family. If members of the insured's family perform work of any description

for an actual or implied remuneration, they must be included by name and the proper premium charge applied in accordance with the above classifications if the Liability of the insured to them in event of injury is to be covered by the policy.

Farm Property.

(For Employers' Liability and Public Liability Coverage.)

For not more than ten acres of land, charge for Public Liability an annual premium of \$4.00 plus 5c. per acre for each additional acre in excess of ten.

For all employees, including "House Servants," charge a rate of \$1.50 for each \$100.00 of their actual cash wages exclusive of board and lodging.

For any Elevator, charge Manual rates as per Elevator Schedule.

(For Combination Coverage (i.e., Employers' Liability and Compensation combined) and Public Liability Coverage.)

For not more than ten acres, charge for Public Liability an annual premium of \$4.00 plus 5c. per acre for each additional acre in excess of ten.

For Combination coverage, the charge shall be as follows :

For all employees including "House Ser-

RESIDENCE AND FARM SCHEDULE — RATES. — Continued.

vants" charge a rate of \$4.00 for each \$100.00 of actual cash wages expended exclusive of board and lodging.

For any Elevator, charge Manual rates as per Elevator Schedule.

Policies covering Farm Property shall, except as follows, exclude accidents to members of the assured's family. If members of the insured's family perform work of any description for an actual or implied remuneration, they must be included by name and the proper premium charge applied in accordance with the above classifications if the Liability of the insured to them in event of injury is to be covered by the policy.

If any members of the insured's family are thus included, their compensation exclusive of board and lodging shall be included in the total wage compensation as expended by the insured during the term of the policy at not less than \$250.00 each, per annum.

The Minimum premium for Combination Coverage (*i.e.*, Employers' Liability and Compensation combined), for a Residence shall be \$11.00, and for a farm \$20.00, which minimum shall provide for the Combination Coverage and Public Liability combined. For Employers' Liability and Public Liability combined, the

RESIDENCE AND FARM SCHEDULE—RATES.—Continued.

specific charges in the foregoing schedule shall be the minimum.

Residence Property risks shall be covered under General Liability forms only, whether written to cover both Employers' Liability and Public, Combination Coverage and Public, or Public alone, but Residence Property shall not be written for Employers' Liability or Combination Coverage without Public.

Farm risks may be written for Employers' Liability and Public, Combination Coverage and Public, or for Employers' Liability or Combination Coverage alone, or for Public alone.

The Combination Coverage rates in this schedule include the obligation for Statutory Medical Aid. Statutory Medical Aid may be specifically excluded and a discount of 20% allowed from all Combination Coverage rates therefor.

The Employers' Liability and Public Liability rates contain no provision for any Medical or Surgical treatment. Policies written at the Employers' Liability rates may be extended to cover First or Full Medical or Surgical Aid for an additional charge as provided under title "Medical Aid," page 12.

STEVEDORE SCHEDULE — RULES.

MINIMUM PREMIUM. — For E.L. or Comb. only, or with P.L., or with P.L. and Teams, \$50.00.

LIMIT TABLE. — All classifications, Rate "D."

ADDITIONAL INTEREST. — Policies issued upon stevedores under this schedule may be extended to cover a named steamship company, employing such stevedores, the insurance being limited to the care and defence of suits and to the payment of premium upon forthcoming bonds, in the event of libel. The undertaking shall be limited to injuries resulting solely from the operations of the stevedore covered by the policy, and the policy shall contain no obligation to pay any resulting judgment against the steamship company. Additional rate for this coverage on both E.L. or Comb. and P.L. policies shall be 10% of the manual rates for the classification involved.

If, in addition to the extension described above, the policy shall be further extended to cover the payment of judgment against the steamship company, within the limit of the policy, additional rate for such coverage on E.L. or Comb. and P.L. policies shall be 25% of the manual rates applicable to the classification involved.

STEVEDORE SCHEDULE — RULES. — Continued.

The foregoing rule is only available when the policy of the stevedore is carried in this Company.

TEAMS SCHEDULE — RULES.

EMPLOYERS' LIABILITY. — If an insured not having accepted for his employees the provisions of the "Compensation Law," desires coverage for Employers' Liability upon his teams, the rates in this schedule shall cover such Employers' Liability in addition to the Public Liability for the maintenance, use and operation of teams, and no additional Employers' Liability charge shall be made.

COMBINATION. — If an insured has accepted the terms of the "Compensation Law," and desires to obtain insurance under its provisions, the following rules shall be applied, and these rules are subject to no variation.

The rates provided in this schedule cover Public Liability only for the maintenance, use and operation of teams, and all Teams Policies shall be written to exclude accidents to the driver or to any other employee engaged in connection with teams except as hereinafter provided.

If there is concurrent combination coverage insurance which takes care of drivers or others engaged upon teams the insured has full protection.

If there is no concurrent combination cov-

erage insurance which takes care of drivers the Teams Policy may be extended to cover drivers only, but not helpers or others employed who do not actually drive, by adding to the Teams rate as given in this Manual an amount per annum for each driver as follows: for teams in San Francisco and Los Angeles, \$14.00, elsewhere in California, \$11.00.

Where an insured does not carry Combination coverage on his general operations, but desires to cover not only drivers, but helpers, lumpers or roustabouts, either permanently or temporarily employed in connection with teams, the insured — provided a teams' policy is written — may obtain combination insurance coverage on such drivers, helpers, lumpers or roustabouts at a rate per \$100.00 of the actual remuneration of such drivers, helpers, lumpers or roustabouts equal to the "Comb." rate provided elsewhere in this Manual for the particular class of business in which the teams are engaged. When no Manual rate is given as also when the Manual rate is less than \$1.40 it is understood that the rate of \$1.40 shall be used.

LOADING AND UNLOADING. — All rates for Teams Insurance given in this schedule include the loading and unloading hazard, except as to such classifications marked

TEAMS SCHEDULE — RULES. — Continued.

with an asterisk (*), namely : Boiler Makers and Dealers, Machinery Dealers, Safe Movers and Mfrs., and Structural Iron and Steel Works which do not cover loading and unloading. For such classifications the hazard of loading and unloading must be covered under Public Liability policies based upon the full payroll of the drivers and their helpers (whether permanent or temporary) at the rates given in the Contractors' Schedule for the following classifications : Boilers (steam), installation of, Millwrights, Safe Movers and Ironwork, respectively. Teams Policies in these particular classifications must be specifically endorsed to exclude the loading and unloading hazard. All other policies must include the loading and unloading hazard and no discount will be allowed for its elimination.

HIRED TEAMS. — Persons hiring teams from other parties shall pay full teams' rate, in accordance with the classification provided therefor, except when the owner of such team is already carrying insurance thereon, in which event, the persons hiring the team may be insured at 50% of the full teams' rate, provided the insured warrants that insurance will be maintained by the

TEAMS SCHEDULE — RULES. — Continued.

owner on the same teams at full Manual rates, and further provided, that the insured's name does not appear upon the vehicle. If the insured's name does appear upon the vehicle, he may be insured at 50% of the full teams' rate, provided the owner of such team is already carrying insurance at full rates with this Company.

SPECIAL. — Horses owned by insured but rented out to others, with vehicles attached, may be covered, while such horses and vehicles are not in charge of the insured or any of his employees, at a rate of \$2.00 per horse per annum, anywhere in the State of California. Horses (not saddle horses nor horses rented with vehicles) which insured hires or furnishes to others, may be covered while not in charge of the insured or any of his employees at \$1.00 per horse per annum, anywhere in the State of California.

MINIMUM PREMIUM. — If the total premium upon a teams' policy is less than \$50.00, the minimum annual premium shall be equal to the highest annual rate charged for one team covered by the policy. If the total premium on the policy is \$50.00 or more,

TEAMS SCHEDULE—RULES.—Continued.

the minimum annual premium shall be \$25.00.

LIMIT TABLE.—All classifications, Rate "B."

Note.—Teams insurance shall not be written for limits of less than \$5,000.00 and \$10,000.00.

**TEAMS PROPERTY DAMAGE INSURANCE—
RULES.**

This is a term adopted to designate insurance to provide against loss arising from the liability of the insured for damages by reason of injury to or destruction of property of any or every description (not, however, the property of the insured when in the care of the insured or any of his employees, nor carried in, upon, or by the vehicles covered) due to the ownership, use, or maintenance of the teams. This form of insurance can only be written concurrently with a teams' policy.

The rate for covering such property damage up to a limit of \$1,000.00, shall be 20% of the premium charged for the team so covered, with a minimum premium for this feature in San Francisco and Los Angeles of \$5.00 per annum per team, and in the remainder of California of \$3 00 per annum per team. Such property damage may be written upon bicycle delivery

TEAMS SCHEDULE—RULES.—Continued.

vehicles (not motor cycles) for the same limits, for a minimum premium of \$2.00 per bicycle only in the territory covered by this Manual. Insurance in excess of a limit of \$1,000.00 may be written for an additional premium, equal to 3% of the premium charged for such \$1,000.00 limit for each \$100.00 in excess of \$1,000.00, and not in excess of \$2,000.00. For each \$100.00 in excess of \$2,000.00 there shall be a further premium charge equal to 1½% of the premium charge for the first limit of \$1,000.00.

Read General Rules.

TEAMS SCHEDULE—RATES.

All teams owned, principally used or generally kept within the limits of San Francisco and Los Angeles shall take the rates in the following schedule in the column entitled "San Francisco and Los Angeles."
